WOJCIECH MURDZEK

Warsaw, 8.03.2022

DIR-WPSW.072.4.2022.

His Magnificence
Prof. dr hab. Anna Wypych-Gawrońska
Rector
Jan Długosz University in Czestochowa

Dear Rector,

I unreservedly express my support for the participation of the Jan Długosz University in Czestochowa in the COLOURS project, prepared in the 2022 *European Universities Initiative* call for proposals under the Erasmus+ Programme.

European Universities is an innovative initiative that the Ministry of Education and Science supports while striving at European level to ensure an appropriate geographical balance of the universities involved and of the experts evaluating proposals, as well as adequate funding for the activity.

The objective of the COLOURS – to be European University that promote innovation and knowledge transfer to society through the creation of multidisciplinary European teams– is important for the development of both Polish and European higher education. The entire academic community need to develop the values, attitudes, knowledge, skills and competences to become agents for the transition of the society. The participation of the Jan Długosz University in Czestochowa in this prestigious initiative is certain to bolster the institution's international standing even further, while allowing for more attractive and better teaching through promoting shared academic values with foreign research centres.

I wish you success in the call for proposals and I am convinced that the consortium's work will bring about truly novel outcomes for the development of modern higher education in Europe.
